LiveU MultiPoint

Distribuição de Vídeo Profissional Interna e Através da Organização

O MultiPonto integra-se sem interrupções no fluxo de trabalho diário dos usuários, permitindo-lhes partilhar canais ao vivo em entrada com vários pontos finais no interior da interface LiveU Central em que trabalham diariamente.

LiveU Products and Services (/images/Resources/Product_Portfolio_Aug_2018.pdf)

The screenshot displays the LiveU Central web interface. At the top, there are navigation tabs for 'DEVICES', 'FILES', and 'MANAGE'. Below these, there are buttons for 'DEVICE LIST' and 'VIDEO MATRIX'. A search bar is present above a table of devices. To the left of the table is a 'FILTERS' panel with a 'TYPE' section containing checkboxes for 'LU 200', 'LU 40', and 'LU 500'. The table has columns for 'Name' and 'Performance'. The 'Sharing Options' panel on the right includes a 'Channel sharing' toggle (set to OFF), a 'Channel' dropdown (set to 'Cobain-Instance1-MMH5'), a 'Sharing license type' dropdown (set to 'Dedicated'), a 'Shared Stream Title' input field, and a 'Subscribers to share with (3)' list containing 'My group', 'ABC', 'West', and 'East'.

	Name ^	Performance
1	1238	576i @ 50fps, 5.0sec
2	7280	No camera
3	LU200_0013	1080i @ 60fps, 2.0sec
4	Shay_LU700	No camera, 5.0sec

CARACTERÍSTICAS DE DISTRIBUIÇÃO

O MultiPoint é fornecido completo com funcionalidades tais como Emparelhamento Publicador / Subscritor, Agrupamento de Destinos e inúmeras classificações de licenciamento, permitindo-lhe implementar o seu fluxo de partilha e operar com apenas alguns cliques do rato.

The screenshot displays the LiveU Central management console. At the top, there are navigation tabs for 'DEVICES', 'FILES', and 'MANAGE', along with user information 'User Groups: YGroup' and links for 'Logout', 'Support', and 'About'. Below this, there are buttons for 'DEVICE LIST', 'VIDEO MATRIX', and 'MAP'. The main interface is divided into several sections:

- FILTERS:** A search bar and various filter options for device types (LU 200, LU 40, LU 500, LU 700SV, DataBridge Extender, LU Lite, LU Smart), status (Transmitting, Online, Offline), ad-hoc settings, and modes (Video, DataBridge).
- Preview Channels:** A section showing a preview of a channel labeled 'Shared from BBC' with a video thumbnail of a person on a grassy field.
- Subscriber:** A large central area displaying the word 'Subscriber' and '0/1', indicating the current subscriber count.
- Output Channels:** A row of three video thumbnails showing different scenes: a vehicle, a landscape, and a street.
- Channel Details:** A panel on the right showing channel information for 'LU200_0013', including location, last update, and bandwidth (9.24 Mbps). It also features controls for 'Mode' (Live, Share & Forward), 'Delay' (2.0 sec), and a 'STOP transmitting' button.
- Local Interfaces:** A section at the bottom right showing active connections (3 Active) and local interfaces (Orange 3G, Pelephone 3G, and two 'No device' entries).

NENHUM HARDWARE ADICIONAL

O MultiPoint não necessita de hardware ou dispositivos onerosos adicionais - basta continuar a usar o seu equipamento LiveU para distribuição de conteúdo eficiente e resiliente sobre qualquer infraestrutura IP.
